08 Roles & Responsibilities

Role / Department	Responsibility
Procurement Team	Integrate ESG and sustainability criteria into supplier selection, contracting, and ongoing performance management.
Sustainability Team	Develop sustainable procurement standards, assist with supplier ESG evaluations, and track supply-chain targets.
Suppliers	Comply with the Supplier Code of Conduct, provide requested disclosures, and participate in sustainability audits.
Senior Management	Approve sustainable procurement commitments, allocate resources, and review supply chain risk reports.
All Employees	Adhere to responsible purchasing guidelines and support sustainable procurement practices.

09 Monitoring, Reporting & Transparency

Environmental performance is monitored continuously through a centralized EHS dashboard, with KPIs reviewed monthly by site leadership and quarterly by the Executive Committee. Independent third-party audits are conducted annually for ISO 14001 and as required by customers. Findings, progress against targets, and incidents are reported in the annual Sustainability Report prepared in line with GRI Standards and BRSR.

10 Review Mechanism & Continuous Improvement

This Policy is reviewed every two years or earlier if there are significant changes in operations, regulations, or stakeholder expectations. The EHS team initiates the review, the Executive Committee approves revisions, and updated versions are communicated to all employees and relevant stakeholders. Feedback collected through employee engagement, customer audits and investor dialogues is incorporated into each revision.
